MAINTENANCE SUPERVISOR

The Erie Downtown Partnership's mission to create a better downtown experience through placemaking, advocacy, and marketing was tested in many ways in 2020. The downtown experience looked and felt very different this year.

Working together to stop the spread of COVID-19 has been of the utmost importance to our organization and other community development organizations across the country. While we had to quickly adjust plans for events, services, and programs, we focused on how the EDP could act as a leader during and beyond this pandemic.

We used Maslow's Hierarchy of Needs as a guiding reference for how to deliver on the downtown experience. This includes prioritizing the needs of our downtown into the major categories of **physiological, safety, love and belonging, esteem, and self-actualization**.

These principles translate to **cleanliness and sanitization, food and shelter, gathering, storytelling, art and delight, and giving back**.

Reassessing our priorities through this lens allowed us to deliver more intentional programs and services, educate and engage the community, design an accessible downtown for all, commit to diversity, equity, and inclusion practices, and help our small businesses recover in the wake of the COVID-19 pandemic.

We invite you to join us as we continue this journey into 2021.

BUSINESS SUPPORT + MARKETING

During the first 30 days of the pandemic, we developed a 'Main Street Relief + Recovery Plan' to guide us in efforts that utilized available grant funds to assist downtown's Main Street businesses who needed them most.

These Relief + Recovery Grants offered up to \$5,000 for eligible businesses to acquire PPE safety and sanitization equipment, provide staff training, launch new e-commerce platforms, and help fund interior reconfigurations to assist with customer intake and ordering protocols that adhered to CDC Guidelines. Funding for this program was provided through the generosity of the Erie County Gaming Revenue Authority through their Mission Main Street grant program.

We also leveraged grant funds from the Erie Community Foundation to launch a Downtown Erie gift certificate buying campaign to support the 60 participating businesses and organizations who accept them. The planned three-day campaign sold out in just 12 hours.

A heartfelt thank you goes out to everyone who purchased Erie Downtown gift certificates throughout the year. Your generosity helped support our downtown businesses at a truly critical time—while further encouraging our community members to Shop Local. We sold \$78,930 in gift certificates during 2020 which is almost ten times the previous year's \$8,630 in sales.

BUSINESS SUPPORT + MARKETING

To ensure our downtown was as welcoming as possible, we worked with the Erie Parking Authority to amend parking spaces adjacent to restaurants and retailers to provide free 20-minute parking for carry-out orders to assist with increased support and customer satisfaction.

Comprised of small business owners and economic development partners, our newly launched Economic Vitality Committee focused solely on economic growth within our downtown. These engagements along with small business briefings and individual outreach efforts have helped us frame this year's approach as we work to address the needs of our business community.

PLACEMAKING

Public Spaces

The need to maintain Downtown Erie as a safe, clean, and welcoming environment has never been more important.

The COVID-19 pandemic was a major stress test on the community's social and economic infrastructure, and that was evident in our downtown core.

Among other pandemic-related issues, our cleaning crews experienced new challenges in keeping our public spaces as clean and safe as possible. Our response to these issues was punctuated by the need to bring people together to create collaborative solutions that take a proactive, hands-on approach.

And we delivered.

PLACEMAKING

Public Art

Last year we installed our second downtown mural on the Housing and Neighborhood Development Service office building at the corner of 7th and State Streets. The mural titled, “Her Voice, Her Vote” was a collaborative project with the League of Women Voters, Erie County Chapter celebrating the 100th anniversary of the ratification of the 19th Amendment and the women’s suffrage movement. Six local female artists from Erie’s public school and university system were selected to develop the mural concept, participate in community paint events, and install the mural. The Erie Downtown Partnership was invited to participate as coordinating partner for the mural after the dedication of our first mural in 2018 celebrating Erie’s diverse New American and refugee community.

Additionally, we will finally be able to install our sculptural gateway, titled “Points of Reference” at the intersection of 3rd and State Streets this Spring. After the pandemic delayed the project, we were still able to host a public input session about the project in September and look forward to working with a local fabricator to bring the project concept to life.

Events & Activation

Our 2020 events programming was greatly impacted by the COVID-19 pandemic. We pivoted early to hold events online and host videos supporting our downtown businesses and local artists. We introduced Downtown Farmers Markets in Perry Square and Clean & Green Workday events where volunteers received \$10 downtown gift certificates for lending a hand.

We got creative with a drive-in movie event on the Bayfront during 814 Day and continued our programming through the Fall and Winter with our Downtown Fall Fest and the expanded Downtown d'Lights event that featured a month-long lighting event marketing our downtown businesses.

Each of our altered events met three new, post-COVID-19 goals:

- To provide access to essential and beneficial services
- To create safe environments out of our public space
- To support Downtown Erie in recovery efforts

2020 challenged us to be more intentional, more resourceful, and more creative with our programming. It also forced us to respond to the changing needs of our community with speed and decisiveness. Our goal is to carry this momentum into 2021 as we continue to push forward with safe, engaging new programming.

Community events and expanded placemaking efforts will play an important role in Downtown Erie's recovery, sustainability, and growth in 2021 and beyond.

ADVOCACY

Over the last year we have all had to find ways to advocate for what we need. We heard loud and clear the business community's need for immediate Federal and State legislative support through shutdowns, lockdowns, and complete turnarounds. We advocated for small business support through our affiliations with the Pennsylvania Downtown Center and the National Main Street Center. We wrote letters and made calls to connect with our local legislators and we collaborated with the Erie Regional Chamber and Growth Partnership to convene legislators serving downtown to underscore the current and forecasted needs in support of small businesses.

We launched a private Downtown Business Discussion Group, just for downtown small business owners and managers to create a place for us to share resources and opportunities as well as a place for you to ask questions of your business peers and give each other encouragement.

Last year also provided us the opportunity to work with a team of Erie Insurance cohorts through the first Thomas B. Hagen Fellowship program that resulted in the foundational development of our new Community Relations Plan. As part of informing the plan we had 1,200 respondents to our Downtown Erie Pulse Survey.
